

# 15-122: Principles of Imperative Computation

---

## Recitation 21a

Nivedita Chopra

### Administrivia

- There is a quiz today and it closes at 10 p.m. as usual
- Midterm on Tuesday and held in two rooms. See the post on Piazza for details.
- Review session for midterm on Sunday from 6 to 9 p.m. in Rashid Auditorium (GHC 4401)
- No programming assignment due Monday
- Short written homework (worth 10 points) due next Thursday

### Questions from past midterms

On the remaining pages of this handout are questions that appeared in the midterms from the Spring and Fall 2011 iteration of 15-122. These were worth a total of 55 points on the respective exams and should take about 30 minutes to solve.
