June 9, 2004

Mr. Tony Bylsma, Director
Narconon Drug Prevention & Education
4442 York Blvd, Suite 18
Los Angeles, CA 90041

Dear Mr. Bylsma,

This is the response to your letter of May 25, 2004. San Francisco Unified School District staff have identified the following issues:

- To date, Narconon has not provided complete presentation outlines as was requested in February 2004. Your letter dated May 24, 2004 indicates this information is "coming shortly."
- School Health Programs clearly identified content revisions needed in a letter dated February 20, 2004. The response you have provided indicates you feel the presentation is "perfectly appropriate" as is.

We are again requesting that Narconon provide a detailed outline for each of the drug prevention presentations you offer to SFUSD schools. The outlines should include and clearly delineate the changes and additions SFUSD previously requested. The revised outlines need to be received by June 24, 2004 and will be reviewed by SFUSD staff to determine if required changes have been made. If Narconon does not comply with this request by June 24, 2004 the organization will be removed from the list of Community Based Organizations shared with SFUSD schools.

Thank you,

A handwritten signature in black ink, appearing to read "Kim Coates", written over a horizontal line.
