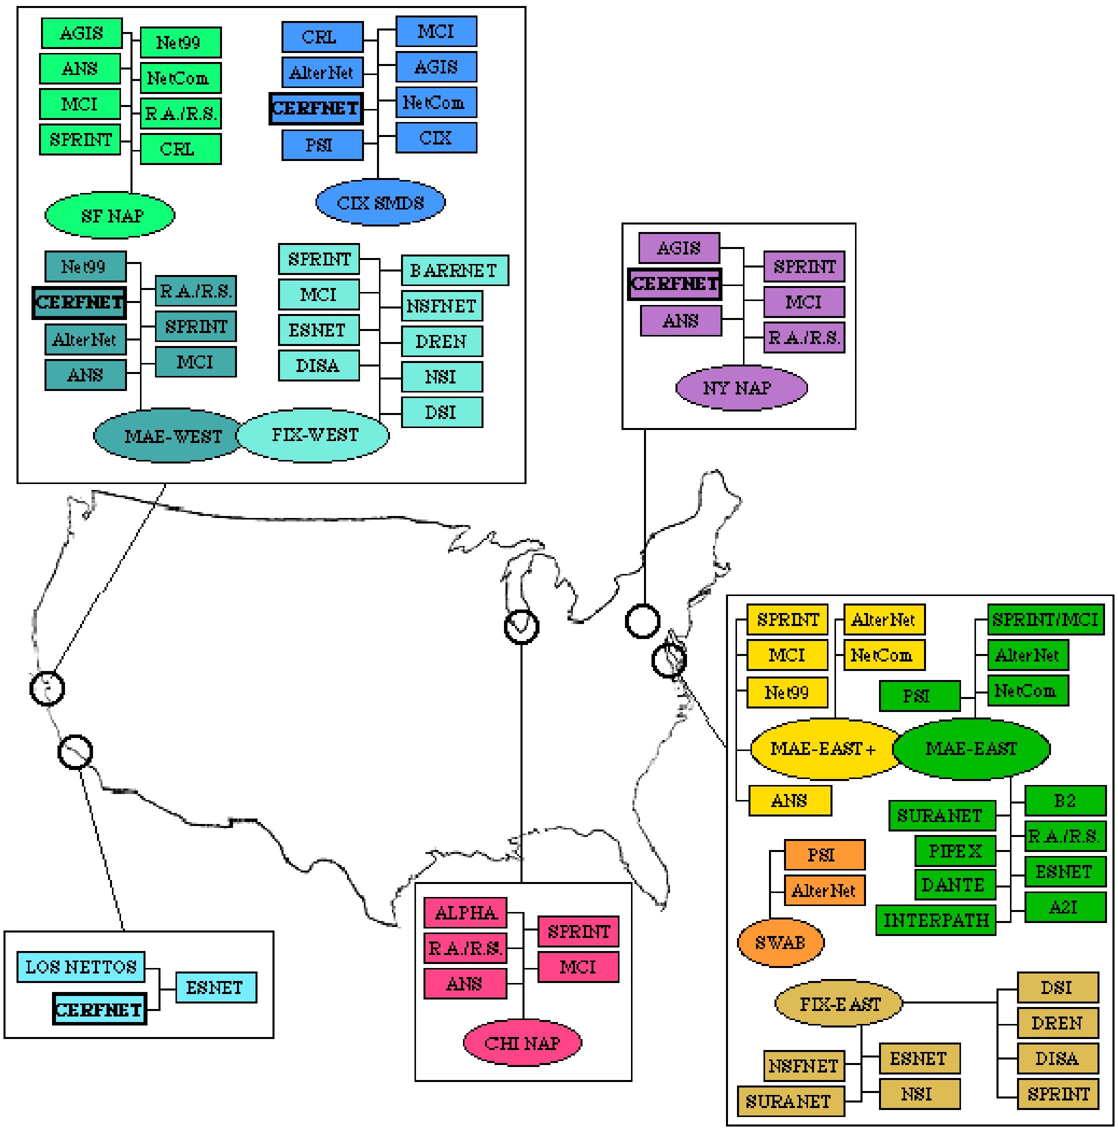
US Network Service Provider Interconnections

DRAFT V1.5 *as of 05/05/95*



Brought to you by CERFNET

Notes:

This map is not intended to be geographically exact. MAE West is in the planning stages. Net99 plans have been solicited for inclusion. For information on ISPs connected to the CIX router, please see the CIX Home Page

Map based on announced intent by NSPs on various mailing lists and information provided by numerous engineers. Corrections/Additions should be mailed to irc-map@cerf.net

Your comments on changing the colors of the map have been noted and will be incorporated in the next release.
