

case management & patient care

hunt statement

“We are going to understand how health care case managers manage cases today in order to design a more intuitive system that allows these professionals spend more time helping people.”

Affinity diagramming the data, ideas for models were brainstormed as a result of **directed storytelling** sessions with therapists and administrators from Peoples Oakland and JF&CS.

The background image shows a hand-drawn affinity diagram on a piece of cardboard. The diagram consists of a grid of green lines. Various elements are drawn on the grid, including a blue circle with a keyhole, a red squiggly line, a black hatched rectangle, and several boxes labeled 'START'. To the right of the grid, the words 'ADMIN', 'THER', and 'PART' are written vertically. On the left side, there are handwritten notes: 'EMOTIONAL PATIENTS', 'HUMAN RELATIONSHIP', and 'MESSY LINE'. A blue marker is visible in the top left corner.

Initial Registration

- 1) client enters/calls/connects
- 2) completes required papers
- 3) submits papers
- 4) reception checks in client

Typical Session

- 1) client enters
- 2) receptionist
- 3) moves to session room
- 4) treatment plan review
- 5) relationship
- 6) client chart/goals/next appt.
- 7) synopsis of goals
- 8) notes to reflect on goals
