Setting AFS space in CFA Mac cluster

January 28, 2010

1   Before start

Be sure to check that afs icon appears on the Desktop. If it doesn't appear on the screen,

1. Go to **Finder ▷ Preferences**
2. Check **Connected servers** under **Show these items on the Desktop**

Then afs icon will appear on the Desktop.

2   Obtaining a token

Before accessing to afs space, obtain a token from cs.cmu.edu.

1. Go to **Terminal**(it's in the taskbar)
2. type `kinit`
3. It will ask you to enter the password (type your ANDREW password)
4. type `aklog cs.cmu.edu`

Now you will get a token for access to cs.cmu.edu.

3   Accessing to afs space

1. Click afs icon on the Desktop
2. Go to afs ▷ cs.cmu.edu ▷ academic ▷ class ▷ 15465-s10-users ▷ yourandrewid (for user volume) or
afs ▷ cs.cmu.edu ▷ academic ▷ class ▷ 15465-s10 ▷ assignment_1 ▷ yourandrewid (assignment_1 can be changed
as assignment_2, etc.)(for handin directories)
3. Drag your folder to the taskbar. It will make your folder appear on the taskbar whenever you log in.
4. Upload/download files to the folder

4   After re-login

1. After re-logging in, your folder will still appears on the taskbar. However, you cannot access to the folder
unless you get a token from cs.cmu.edu. So make sure to obtain a token before accessing to your folder.

2. Sometimes a window that asks you to authenticate against andrew.ad.cmu.edu pops up. If it happens, type the following in each line:
First : **yourandrewid**
Second : **yourandrewpassword**
Third : **ANDREW**
Otherwise, your folder will not appear in the taskbar.
