There are two typographical errors in the article as it was published.

The unnumbered equation immediately preceding Eq. (1) was published with a sign omitted and should read

$$\tau = T_s + (\phi_s/2\pi f) + (k/f).$$

A more serious error was introduced in typesetting Eq. (4).

This equation should read

$$\omega_i = \left\{ \sigma_i^2 + K_0 \left[\sum_k p(\tau(i,f_k),f_k)q(f_k) \log\left(\frac{f_U}{f_L}\right) \right]^{-1} \right\}^{-1}. \tag{4}$$

The authors thank T. M. Shackleton for calling our attention to the error in Eq. (4) and apologize for any difficulties that these errors may have caused.

Erratum: "Evaluating the articulation index for auditory–visual input" [J. Acoust. Soc. Am. 89, 2952–2960 (1991)]

Ken W. Grant and Louis D. Braida

There is an error in the first panel of Fig. 9 showing the results for talker WR. The filled squares should be labeled WR-WBS while the open circles should be labeled WR-FIL. We apologize for any inconvenience caused by this error.
