

AMBIENCR.COM / 2007 RE-SKIN WIREFRAMES

DRAFT AS OF JULY 27, 2007

ABOUT THIS DOCUMENT

Wireframes are page-level diagrams that describe in a graphical form, devoid of any branding elements, the layout and information hierarchy of content and functionality elements.

This document is part of the complete description of the revised Ambien CR website, from which a build can be executed by InTouch. The other components of this document include:

Copy Deck: A Word document that lists out all the actual text which will appear in the site. Any large areas of copy in these wireframes are represented in 'greeked' text as placeholders.

Functional Specs: A Word document that contains the business rules governing the functionality of all non-trivial tools and functions within the site, such as login/registration, find a doctor, etc., as well as overall technical specifications for build.

ADDITIONAL PARKING LOT ISSUES:

The following items had been in a parking lot of to be decided issues, which this document proposes the following solutions thereto:

- 1) Registration/Login - Users will be required to login when accessing the sleep diary or the Free Trial Offer certificate. Once users are logged in, they will remain logged in until their browser window is closed.
- 2) Branded Emails - these emails will be created and sent out by InTouch rather than by Sanofi tech and need to appear in HTML and text form, depending on users' platform standards.
- 3) All Sleep Tips that appear under Trouble Sleeping will be combined with the bed-der rules found under Sleep Resources, into one sub-nav category called 'Sleep Tips' living under the Sleep Resources section.
- 4) The separate sub-nav sections for the Patient Education Brochure and 'The Ambien Legacy' will be deleted and that content rolled into the main intro page of About Ambien CR.

How to get here:
User types www.ambienr.com directly, or is referred to page via search result or paid ad.

Concept/Purpose/Objective:
To provide Introduction to Ambien CR brand, establish persona-based navigation and highlight persistent global navigation and callout functionality.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar, callout photos (FTO, CR Extras, CR Difference, Find a Doctor) and fair balance/footer.

Persona Navigation:
FLASH-based. Upon page load animation commences illustrating individual persona interactions with brand. See Personas/Scenarios document for more detailed descriptions and potential messaging. Upon completion, indications appear that individual personas are roll-overable for more information. Upon user rollover, additional callout area appears with further brand story messaging, along with clickable button that takes user into interior based on which Persona is clicked (see flowcharts).

Global Callouts:
Photo areas for FTO, CR Extras, CR Difference have flash functionality that provide additional text upon rollover. Entire area is clickable and sends user to an interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1 Persistent Toolbar. Includes search function. A-A button is a toggle that switches text between large and small text versions.
- 2 Persistent Global Navigation. Home Icon returns user to Home Page. Buttons have 3 states: (1) unselected, (2) rollover and (3) selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 3 DHTML display of sub-navigation upon rollover. Must be implemented as text, not graphics, to facilitate search optimization.
- 4 Persistent callout area with photo treatment. Clicking sends to interior page. See different treatment on interior pages. Upon rollover, displays additional descriptive text, which must be implemented as text not graphics.
- 5 FLASH: Upon page load, button first appears to indicate that persona graphic is roll-overable. After first rollover, call out area like Note 7 appears and all Note 5 rollover buttons disappear.
- 6 Photo treatment of individual persona character. See Ambien CR Personas/Scenarios document for detailed descriptions
- 7 FLASH: Callout area with further descriptive story about Persona. Contains button that leads to interior main sub-nav page, based on persona chosen.
- 8 Persistent Callout area for find a doctor functionality. See different treatment on interior pages.
- 9 Persistent Fair Balance text and persistent footer. Intended to fall below fold on home page. Fair balance on subsequent templates is shown in greeked text.

AMBIEN CR is indicated for the treatment of insomnia.

Important Safety Information
AMBIEN CR is a treatment option you and your healthcare provider can consider along with lifestyle changes and can be taken for as long as your provider recommends. Until you know how AMBIEN CR will affect you, you shouldn't drive or operate machinery. Be sure you're able to devote 7 to 8 hours to sleep before being active again. Sleepwalking, and eating or driving while not fully awake, with amnesia for the event, have been reported. If you experience any of these behaviors contact your provider immediately. In rare cases, sleep medicines may cause allergic reactions such as swelling of your tongue or throat, shortness of breath or more severe results. If you have an allergic reaction while using AMBIEN CR, contact your doctor immediately. Side effects may include next-day drowsiness, dizziness, and headache. It's non-narcotic; however, like most sleep medicines, it has some risk of dependency. Don't take it with alcohol.

How to get here:
User types www.ambienr.com directly, or is referred to page via search result or paid ad.

Concept/Purpose/Objective:
To provide Introduction to Ambien CR brand, establish persona-based navigation and highlight persistent global navigation and callout functionality. This is the static HTML version of the home page which automatically loads when a browser-check determines that the user is not flash enabled.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar, callout photos (FTO, CR Extras, CR Difference, Find a Doctor) and fair balance/footer.

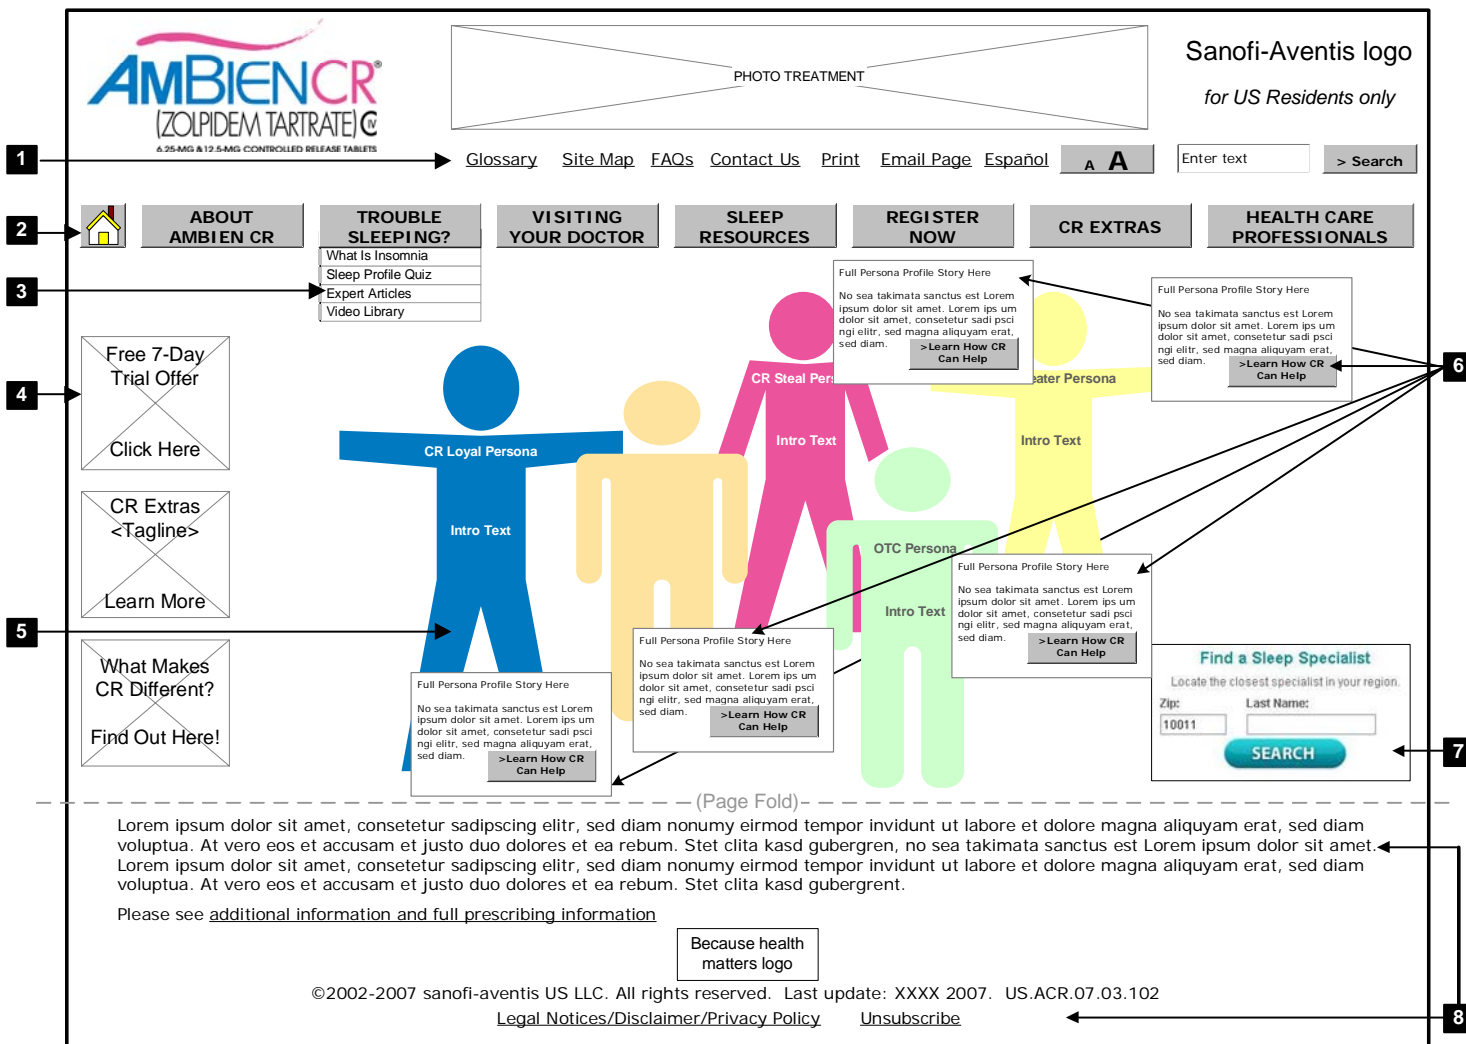

Persona Navigation:
See Personas/Scenarios document for more detailed descriptions and potential messaging. Additional callout area appears in flash version end state frame (implemented as HTML), with further brand story messaging, along with clickable button that takes user into interior based on which Persona is clicked (see flowcharts).

Global Callouts:
Photo areas for FTO, CR Extras, CR Difference. Entire area is clickable and sends user to an interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1 Persistent Toolbar. Includes search function. A-A button is a toggle that switches text between large and small text versions.
- 2 Persistent Global Navigation. Home Icon returns user to Home Page. Buttons have 3 states: (1) unselected, (2) rollover and (3) selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 3 DHTML display of sub-navigation upon rollover. Must be implemented as text, not graphics, to facilitate search optimization. **DISPLAYS ON HOME PAGE ONLY, NOT INTERIOR.**
- 4 Persistent callout area with photo treatment. Clicking sends to interior page. See different treatment on interior pages.
- 5 Photo treatment of individual persona character. See Ambien CR Personas/Scenarios document for detailed descriptions
- 6 As HTML: Callout area with further descriptive story about Persona. Same text as for flash version just in end frame state. Contains button that leads to interior main sub-nav page, based on persona chosen.
- 7 Persistent Callout area for find a doctor functionality. See different treatment on interior pages.
- 8 Persistent Fair Balance text and persistent footer. Intended to fall below fold on home page.

How to get here:
User selects 'Site Map' from constant toolbar.

Concept/Purpose/Objective:
To provide map of entire site in textual fashion to allow user to see all pages

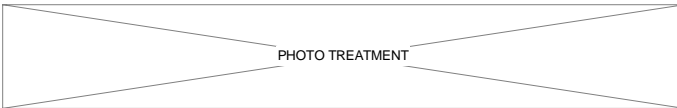

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

(reserved 3rd column area)

NOTES

- 1 Persistent Toolbar. When User lands on this page, text for sitemap link changes to 3rd color (some other color than for unvisited or visited link state — I would use Red)
- 2 Text Area. Links to each page sends user to appropriate page. **SHOULD BE IMPLEMENTED IN 2 NEWSPAPER COLUMNS TO FIT ALL TEXT ABOVE THE FOLD**

How to get here:
User selects enters text in search field and clicks on search button.

Concept/Purpose/Objective:
To provide search results based on text entered in search field.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

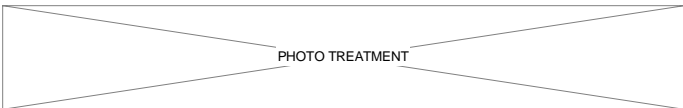

Global Callouts (3rd Column):
Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Search result numbering section. Default results show in batches of 10. Here, second set of 10 results are shown. Back and Next buttons take user to previous and next sets of 10 results, respectively. When set of first 10 results is displayed, there is no back button displayed.
- 2** Individual Results. Can be implemented across two columns. SHOULD ALL BE DISPLAYED ABOVE THE FOLD. Title of search result is a link that takes user to respective page. Descriptive text of search result taken from alt-text of page or first few lines of text on that page.

(reserved 3rd column area)

How to get here:

User selects glossary from toolbar. Launches page as pop-up.

Concept/Purpose/Objective:

To provide definitions of technical terms for user

Technical Specifications:

Designed in fixed size (around 1/3 of a full size page). User should not be able to control size of box. Implemented with scrollbar.

Global Navigation:

None.

Global Callouts (3rd Column):

None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

1 Glossary text. Taken from Shuteye.com but without the internal links contained therein to internal pages of Shuteye.

2 Pop-up implemented in fixed dimensions with scroll bar.

(ZOLPIDEM TARTRATE)®
6.25-MG & 12.5-MG CONTROLLED RELEASE TABLETS

Glossary

Antihistamine — A type of chemical present in many cold and allergy medicines, and some nonprescription sleep medicines. When taken at night as sleep aids, antihistamine-containing medicines may result in daytime drowsiness.

Barbiturates — Sedating medications that were used as sleep aids years ago but are rarely prescribed for insomnia today, due to their overall safety risks.

Benzodiazepines — A class of medications often prescribed for sleep problems. This class includes both long-acting medicines (which can linger in the body and potentially cause daytime drowsiness) and short-acting medicines (which do not stay in the bloodstream as long). Many benzodiazepines were originally formulated to treat anxiety.

Lorem ipsum dolor sit amet — consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet.

Lorem ipsum dolor sit amet — Duis autem vel eum iriure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan et iusto odio dignissim qui blandit praesent luptatum zzril delenit augue duis dolore te feugait nulla facilisi. Lorem ipsum dolor sit amet, consetetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat.

Lorem ipsum dolor sit amet — Ut wisi enim ad minim veniam, quis nostrud exerci tation ullamcorper suscipit lobortis nisl ut aliquip ex ea commodo consequat. Duis autem vel eum iriure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan et iusto odio dignissim qui blandit praesent luptatum zzril delenit augue duis dolore te feugait nulla facilisi.

How to get here:

User selects 'email page' from toolbar. Launches page as pop-up.

Concept/Purpose/Objective:

To provide user ability to send branded email to third party about page clicked upon.

Technical Specifications:

Designed in fixed size (around 1/3 of a full size page). User should not be able to control size of box. Error checking around 'Your Email' and 'Friend's Email' to prove valid email address of xxx@xxx.com/org etc.

Global Navigation:

None.

Global Callouts (3rd Column):

None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

AMBIENCR®

Email Friend

Your email was successfully sent to <Name of Friend Field Contents>

5 →

NOTES

- 1 Form fields for user entry. Email fields are checked by system for valid format xxx@xxx.xxx.
- 2 Message form field entry box begins with default text. Clicking inside form clears default text and lets user enter their own text.
- 3 Clicking checkbox for 'send me a copy' send duplicate email to Your Email address
- 4 After user clicks send, pop-up repopulates with this information in 2nd box. 2nd box has same dimensions as original pop-up.
- 5 Clicking on 'close window' kills spawned pop-up.

How to get here:

User selects (1) 'About Ambien CR' from main nav or (2) 'About Main' from sub nav when already within About Ambien CR section, or (3) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide introductory text to welcome users to Ambien CR site. Very limited copy exists in current site. Copy needs to be substantially increased. Repurpose copy from new Patient Education Brochure (see separate document) as well as from old The Ambien Legacy page.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

Zip: 10011 Last Name: SEARCH

How to get here:

User selects (1) "How it Works" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of "About Ambien CR" on home page or from other interior sections.

Concept/Purpose/Objective:

To provide text describing how Ambien CR works. Current copy is very scientific sounding and needs to be repurposed in tone.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:
User selects (1) "Benefits" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of "About Ambien CR" on home page or from other interior sections.

Concept/Purpose/Objective:
To provide text describing benefits of Ambien CR. Very limited copy exists in current site. Copy needs to be substantially increased.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:
User selects (1) "Ambien CR vs. Other Solutions" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of "About Ambien CR" on home page or from other interior sections.

Concept/Purpose/Objective:
To provide competitive information highlighting superiority of Ambien CR over both Rx and OTC brands.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

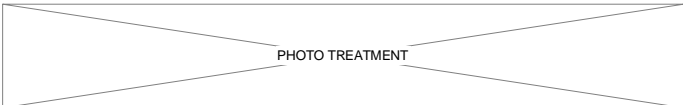

Global Callouts (3rd Column):
Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Persistent Toolbar. Includes search function. A-A button is a toggle that switches text between large and small text versions.
- 2** Persistent Global Navigation. Home Icon returns user to Home Page. Buttons have 3 states: (1) unselected, (2) rollover and (3) selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 3** Dedicated Subnavigation area. Implemented textually not as graphics. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 4** Treat area below navigation in 3-column layout with textual content allowed in columns 1 and 2. Here, text area spread across 2 column area. See copy deck for complete text.
- 5** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 6** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) "FAQs" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of 'About Ambien CR' on home page or from other interior sections.

Concept/Purpose/Objective:

To provide text describing frequently asked questions for Ambien CR. Should be implemented exactly as written in current site implementation.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details. Should be implemented exactly as in current site.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

The wireframe shows the top of the website with the Ambien CR logo and 'ZOLPIDEM TARTRATE' branding. A 'PHOTO TREATMENT' placeholder is at the top right. Below the logo is a search bar and a navigation menu with categories: ABOUT AMBIEN CR, TROUBLE SLEEPING?, VISITING YOUR DOCTOR, SLEEP RESOURCES, REGISTER NOW, CR EXTRAS, and HEALTH CARE PROFESSIONALS. A sub-navigation bar includes links like Main, How It Works, Benefits, etc. The main content area features a 'Frequently Asked Questions' section with placeholder text. On the right, a vertical column contains callouts: '7-Day FTO Click Here', 'CR Extras Learn More', 'Discover the CR Difference', and 'Find a Sleep Specialist' with a form. A dashed line indicates a page fold. The footer contains copyright information and links for legal notices and unsubscribing.

How to get here:

User selects (1) "News Releases" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of "About Ambien CR" on home page or from other interior sections.

Concept/Purpose/Objective:

To provide location for sanofi-aventis press releases regarding Ambien CR.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Links to individual press releases. Selecting link takes user to individual release page (see next template). Releases should be posted in reverse time order, with newest at top.
- 4** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 5** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) "TV Ad" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of 'About Ambien CR' on home page or from other interior sections. Launches page as pop-up.

Concept/Purpose/Objective:

To provide functionality to view latest Ambien CR TV Ad

Technical Specifications:

Designed exactly as implemented in current site. However if browser check determines user is not Flash enabled, a pop-up appears with an HTML version of the final frame displayed as shown in callout 2.

Global Navigation:

None.

Global Callouts (3rd Column):

None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Version displayed if user is flash enabled. Designed exactly as exists in current site.
- 2** If user is not flash enabled, selecting TV Ad launches a pop-up with an HTML image of the final frame of the video with no navigation associated with it.

How to get here:

User selects (1) "The Ambien CR Difference" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of 'About Ambien CR' on home page or from other interior sections.

Concept/Purpose/Objective:

To provide flash animation about comparing Ambien CR to other Rx medications. **Current flash animation needs to be recreated**

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Functions exactly as implemented in current site, but with new flash animation to be provided by Creative. Note that browser checks if user is flash enabled. If not, then automatically displays an HTML graphic of the final frame of the animation.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Flash animation. To be newly created by Creative.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) "Trouble Sleeping?" from main nav or (2) "Main" from sub nav when already within Trouble Sleeping section, or (3) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide introductory text about whether users have a sleeping problem. Very limited copy exists in current site. Copy needs to be substantially increased.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) 'What Is Insomnia' from sub nav when already within 'Trouble Sleeping?' section, or (2) from DHTML sub nav bar of 'Trouble Sleeping' on home page or from other interior sections

Concept/Purpose/Objective:

To provide text describing causes and symptoms of insomnia. Combination of existing text and text from insomnia.treatment.com. See copy deck for details.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

How to get here:

User selects (1) 'Sleep Test' from sub nav when already within Trouble Sleeping? section, or (2) from DHTML sub nav bar of 'Trouble Sleeping' on home page or from other interior sections

Concept/Purpose/Objective:

To provide interactive text to assess whether user has a sleep problem. Use new test repurpose from Insomniatreatment.com. See copy deck for details.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Sleep test taken from insomniatreatment.com. See copy deck for details. Currently, test has 10 questions — can be implemented all on one page. After user clicks 'get my results', page repopulates with score, descriptive text and buttons 'take again' 'print results', which when selected, send text of all questions and answers, with user's selected answers shown, as well as the score and descriptive score text.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) "Video Library" from sub nav when already within About Ambien CR section, or (2) from DHTML sub nav bar of 'Trouble Sleeping' on home page or from other interior sections...

Concept/Purpose/Objective:

To provide location for videos from third-party experts on sleep information. Needs intro copy to be written.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Links to individual individual articles. Selecting link takes user to individual article page (see next template). Articles should be posted in reverse time order, with newest at top.
- 4** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 5** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

The wireframe shows a website layout for Sanofi-Aventis. At the top left is the AMBIENCR logo with the text '(ZOLPIDEM TARTRATE) TABLETS' and '6.25-MG & 12.5-MG CONTROLLED RELEASE TABLETS'. To the right is a 'PHOTO TREATMENT' placeholder. Further right is the Sanofi-Aventis logo and the text 'for US Residents only'. Below the logo is a search bar with 'Enter text' and '> Search'. A navigation bar contains buttons for 'Main', 'ABOUT AMBIEN CR', 'TROUBLE SLEEPING?', 'VISITING YOUR DOCTOR', 'SLEEP RESOURCES', 'REGISTER NOW', 'CR EXTRAS', and 'HEALTH CARE PROFESSIONALS'. Below this is a sub-navigation bar with 'Main', 'What Is Insomnia?', 'Sleep Test', 'Expert Articles', and 'Video Library'. The main content area is titled 'Video Library' and contains three video entries, each with a title and a brief description. To the right of the video library is a vertical column of four callout boxes: '7-Day FTO Click Here', 'CR Extras Learn More', 'Discover the CR Difference', and 'Find a Sleep Specialist'. The 'Find a Sleep Specialist' box contains a search form with 'Zip:' (10011), 'Last Name:', and a 'SEARCH' button. Below the video library is a '(Page Fold)' line. Below the fold is a paragraph of Lorem Ipsum text, a 'Because health matters logo', and a footer with copyright information: '© 2002-2007 sanofi-aventis US LLC. All rights reserved. Last update: XXXX 2007. US.ACR.07.03.102'. At the bottom are links for 'Legal Notices/Disclaimer/Privacy Policy' and 'Unsubscribe'.

1

2

3

4

5

How to get here:

User selects link of individual video from 1.2.5 list of video library. Selecting back button takes user back to 1.2.5 list of videos page.

Concept/Purpose/Objective:

To provide location to play video from library.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site. Videos are taken from insomnia-treatment.com and should follow their original implementation.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Video playback embedded in page. Implemented in same fashion as developed in insomnia-treatment.com. Controller should only have controls for play/pause toggle, stop and a slider to indicate progress/user skipping through video; all other controls from original implementation can be eliminated. Implement as .wmv file.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

The wireframe shows a page layout for a video player. At the top left is the AMBIENCR logo with the text '(ZOLPIDEM TARTRATE) TV' and '6.25-MG & 12.5-MG CONTROLLED RELEASE TABLETS'. To the right is a 'PHOTO TREATMENT' placeholder. Further right is the Sanofi-Aventis logo and the text 'for US Residents only'. Below the logo is a navigation bar with links: Glossary, Site Map, FAQs, Contact Us, Print, Email Page, Español, and a search box. A secondary navigation bar contains buttons for 'Main', 'What Is Insomnia?', 'Sleep Test', 'Expert Articles', and 'Video Library'. The main content area features a 'Video Title' field with a '< Back' button and a large video player area with playback controls. To the right is a sidebar with four callout boxes: '7-Day FTO Click Here', 'CR Extras Learn More', 'Discover the CR Difference', and 'Find a Sleep Specialist' (which includes a form for zip code and last name). A dashed line indicates a '(Page Fold)' line. Below the fold is placeholder text and a 'Because health matters logo'. The footer contains copyright information and links for 'Legal Notices/Disclaimer/Privacy Policy' and 'Unsubscribe'.

How to get here:

User selects (1) "Visiting Your Doctor" from main nav or (2) "Main" from sub nav when already within Visiting Your Doctor section, or (3) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide introductory text about how users can approach their healthcare provider. Text is a combination of existing text and text from insomnia.treatment.com.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:
User selects (1) 'Ask Your Doctor' from sub nav when already within Visiting Your Doctor section, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:
To provide info about questions you should ask your doctor. Implemented exactly as in current site. Selecting print generates branded printout with user's answers.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details. Checkboxes start in unselected state. Selecting print prints out branded document showing all questions and showing checkboxes which user ticked. Can be implemented in two columns. Should be implemented entirely above the fold.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

Main Ask Your Doctor Sleep Diary Find A Doctor

Ask Your Doctor

Asking your doctor the right questions can go a long way toward resolving your insomnia. So make the most of your visit by getting all your sleep-related questions answered. Below are some examples of questions to ask in five sleep-related categories. Simply check off the questions you have for your doctor, and then click "print" below. Checking the boxes below that only pertain to you will enable you to customize the printout. Then you can use the printout as a reference for discussing your symptoms during your doctor's visit.

Sleep Loss

- What can I do about stress-related sleep loss?
- Are there certain lifestyle factors that can cause sleep loss?
- Can napping during the day cause sleep loss at night?
- What medical conditions could be causing my sleep loss?
- Could any of the medications I'm taking be causing my sleep loss?

Sleep Problems

- How do I know if I'm not getting enough sleep?
- What defines having difficulty falling asleep?
- What could be causing me to wake up frequently during the night and have trouble returning to sleep?
- How can I tell the difference between a few nights of un-refreshing sleep and a more serious sleep problem?

Sleep Tips

- How can I change my sleep environment to help?
- What lifestyle changes can I make to improve my sleep?
- Are there relaxation techniques that can help?
- How could a sleep medication help?

Over-the-Counter Sleep Aid Medications (available without a prescription)

- How do these products work?
- Are these any safer than prescription sleep medications?
- Will I feel groggy when I wake afterwards?
- What are the side effects?

Prescription Sleep Aid Medications

- What are the advantages of taking a prescription sleep medication instead of an over-the-counter (non-prescription) medication?
- How safe is treatment with sleep medications?
- What are the side effects?

How to get here:

User selects (1) 'Sleep Diary' from sub nav when already within Visiting Your Doctor section, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To introduction, registration and login functions for sleep diary. Implemented exactly as in current site with some text rearranged. See flowcharts for destinations of links and buttons on this page.

Technical Specifications:

IF FIRST TIME REGISTRATION, SYSTEM SENDS BRANDED EMAIL TO USER INDICATING SUCCESSFUL REGISTRATION, AS WELL AS SEND DAILY REMINDER EMAILS IF USER HAS NOT RELOGGED INTO DIARY ON DAILY BASIS TO FILL IN.

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details. See flowcharts for destinations of buttons and links on this page. System performs checks on entry fields to test valid email addresses and to test for duplicates. Can be implemented in two columns. Should be implemented entirely above the fold if possible. Passwords must be minimum 6 characters.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

ABOUT AMBIENCR TROUBLE SLEEPING? VISITING YOUR DOCTOR SLEEP RESOURCES REGISTER NOW CR EXTRAS HEALTH CARE PROFESSIONALS

Main Ask Your Doctor Sleep Diary Find A Doctor

Personal Sleep Diary
The more information your doctor has about your sleeping patterns and habits, the easier it will be to diagnose and treat your problem. This 7-day Sleep Diary will give you a clear "snapshot" of your sleep patterns to share with your doctor.

Keep a Record of Your Sleep
It's easy. Just answer the questions in the morning and before bed for 7 consecutive days and nights. The Sleep Diary tool will create a picture of your sleep patterns over the week. Looking at your Diary, you may see patterns which give you insight into your sleep habits. The Diary may also help your healthcare professional to determine the best treatment for you, so be sure to print it out and take it with you on your next visit.

Your Information Stays Safe and Private
Your information is for your eyes only because it's protected with your password. We never share your information with anyone. For more information, please read our [Privacy Policy](#).

Register Now to Get Started
Create your password and [begin recording your sleep information today](#).

Your e-mail Address:
(This will be your user name. Your e-mail address should look something like this: yourname@domain.com)

Re-enter e-mail Address:

Your Password:
Passwords should be a minimum of 6 characters, and we recommend they contain both alpha and numeric characters. No spaces are allowed.

Re-enter Password:

We ask for your e-mail address only for the purpose of creating a user name. We won't use it for marketing purposes, only to contact you with information regarding your use of the Sleep Diary.

Manual Sleep Diary
If you'd prefer, you can print out this non-interactive version of the Sleep Diary and complete it by hand.
[Download](#)

Note: The diary is provided in Adobe® Acrobat® Reader® format (PDF). To view or print it, you must have Adobe Acrobat Reader (version 3.0 or higher) installed on your computer. If you do not have the Reader, you can obtain it free from [Adobe Systems Incorporated](#). Click on the icon below to download the program from their Web site.

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Search Results. See functional specs for details. In brief: list of individual search results, grouped in lists of 10. If more than 10, creates additional pages, which can be navigated to/from by using Previous and Next Buttons. Indicator for total number of results and what page user is on of total pages. Jump to page takes user directly to page number entered in entry field (error check for valid number entry). Selecting doctor name launches pop-up of doctor detail (see 1.3.3.1.1). Selecting Address launches pop-up of address map (see 1.3.3.1.2). New search returns user to search entry form page (1.3.3).
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

NOTES

How to get here:

User selects address from search results list in Find A Doctor tool (see 1.3.3.1). Launches page as pop-up.

Concept/Purpose/Objective:

To provide user ability to map of a doctor's address via google maps from their search results.

Technical Specifications:

Designed in fixed size (around 1/4 of a full size page). User should not be able to control size of box. Information ripped directly from database from insomniatreatment.com. Functionality ripped from google maps.

Global Navigation:

None.

Global Callouts (3rd Column):

None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

How to get here:

User selects (1) 'Sleep Resources' from main nav or (2) 'Main' from sub nav when already within Sleep Resources section, or (3) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide introductory text about tips and resources users can employ for better sleep. Very limited copy exists in current site. Copy needs to be substantially increased.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) 'Sleep Tips' from sub nav when already within Sleep Resources section, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide text describing tips for better sleep. Combination of existing text from 'sleep tips' and 'bed-der rules' sections, and text from insomniatreatment.com. See copy deck for details.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) 'Muscle Relaxation Tips' from sub nav when already within Sleep Resources section, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide text describing tips for how to relax one's muscles to sleep. Implemented exactly as in current site. Text is updated to show that macromedia is now adobe. See copy deck for details.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

How to get here:

User selects (1) 'Relaxation Music' from sub nav when already within Sleep Resources section, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To controller to play or download some relaxation music. Implemented as in current site except with addition of a 'download' button, which initiates the user's computer's download process of the music file.

Technical Specifications:

IMPLEMENTED AS A POP-UP. USER CANNOT CONTROL WINDOW SIZE.
'Download' button downloads file to user's desktop as an .mp3 file. Play button is a toggle with Stop.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Pop-up for controller of relaxation music. Window launches with file in stop mode. Selecting 'play' begins playing of music file and play button swaps out with a stop button. Selecting 'stop' stops play and swaps button out with 'play' button. Selecting 'download' initiates downloading process of music file to user's desktop as .mp3.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) 'Register Now' from Main Nav or (2) "Registration from sub-nav when within 'Register Now' section or (3) selects '7-Day FTO' callout area in 3rd column calls to action area.

Concept/Purpose/Objective:

To provide form to allow users to register with the site to receive CR Extras messaging and a free trial offer certificate.

Technical Specifications:

IMPLEMENTED THE SAME AS IN CURRENT SITE IN LATEST CR EXTRAS VERSION. ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION.

IF POSSIBLE IMPLEMENT THIS PAGE COMPLETELY ABOVE THE FOLD IN TWO OR THREE COLUMNS. FAIR BALANCE CAN APPEAR BELOW THE FOLD.

Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

1 Registration form exactly as developed for latest CR Extras campaign version.

NOTES

1 Thank you text (to be written) displaying based on segment determination from user's answers to questions on registration page 1.5

The wireframe shows a website layout for AMBIENCR. At the top left is the logo: **AMBIENCR[®]** (ZOLPIDEM TARTRATE) **®** 6.25-MG & 12.5-MG CONTROLLED RELEASE TABLETS. To the right is a placeholder for the **CR EXTRAS LOGO/TREATMENT**. Further right is the **Sanofi-Aventis logo** with the text *for US Residents only*.

Below the logo is a navigation bar with links: [Glossary](#), [Site Map](#), [FAQs](#), [Contact Us](#), [Print](#), [Email Page](#), [Español](#), and a search box with "Enter text" and a "> Search" button. A language selector shows "A A".

Below the navigation bar is a main menu with buttons: **ABOUT AMBIEN CR**, **TROUBLE SLEEPING?**, **VISITING YOUR DOCTOR**, **SLEEP RESOURCES**, **REGISTER NOW**, **CR EXTRAS**, and **HEALTH CARE PROFESSIONALS**. Below this is a sub-menu with buttons: **Registration**, **Forgot Password**, and **Change Username or Password**.

The main content area contains a "Thank you for registering on www.AMBIENCR.com" message, followed by placeholder text: "Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit." Below this is the instruction: "Please print your certificate located below."

A callout box labeled **1** points to the "Thank you" text.

The certificate itself is titled **7-day Free Trial Certificate** and includes the following text:

- Bring this certificate to your healthcare provider today and receive a 7-day free trial offer of AMBIEN CR. Only good for seven free 6.25-mg or 12.5-mg tablets with your AMBIEN CR prescription.
- rlh sdf
- sd
- sd09, NY, 10011
- Group#: H166665
- Identification#: C31925194
- This offer is good through: 9/8/2007
- Directions:**
 - 1 Ask your healthcare provider to see if AMBIEN CR is right for you. If it is, ask for a 7-day prescription to receive your free trial.
 - 2 Present this certificate and your 7-day prescription for AMBIEN CR to your local pharmacy to receive 7 days of AMBIEN CR, free.
- This certificate is part of the sanofi-aventis Free Trial program for AMBIEN CR.
- For the Physician:**
 - In order to use this certificate, your patients will require one prescription for seven (7) tablets of AMBIEN CR 6.25-mg or 12.5-mg only.

 A "PRINT CERTIFICATE" button is in the top right corner of the certificate area.

At the bottom right, a vertical arrow points down with the text "Continues as on current site".

How to get here:

User selects (1) 'Forgot Password' from sub nav when already within Registration, (2) from DHTML sub nav bar on home page or other interior sections or (3) from sleep diary or registration pages.

Concept/Purpose/Objective:

To provide functionality for users to recover their password.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

1 Text entry field for user to enter email address. Error checking to determine if valid email address on file.

How to get here:
User selects (1) 'Change Username or Password' from sub nav when already within Registration, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:
To provide functionality for users to change their username or password.

Technical Specifications:
ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

1 Text entry fields for user to enter email address and password. Error checking to determine if valid email address on file, and that password meets password criteria. If successful, branded email sent to user's email address indicating a change was made.

How to get here:

User selects (1) 'CR Extras' from main nav or (2) 'Main' from sub nav when already within CR Extras section, or (3) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide introductory text about the CR Extras program. THIS SECTION MAY NOT BE IMPLEMENTED BY LAUNCH. Copy needs to be created.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 4** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

How to get here:

User selects (1) 'Extras Archive' from sub nav when already within CR Extras section, or (2) from DHTML sub nav bar on home page or other interior sections.

Concept/Purpose/Objective:

To provide location to talk about and view previous CR Extras newsletters and communications. This may also be the location to archive old Bedpost newsletters. THIS SECTION MAY NOT BE IMPLEMENTED BY LAUNCH. Copy needs to be created.

Technical Specifications:

ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization. There are no links anymore within body section text to other sections of the site.

Global Navigation:

Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):

Photo areas for FTO, CR Extras, CR Difference and Find A Doctor. Entire area of each is clickable and sends user to another interior page (see flowcharts). Find A Doctor is a function of form fields which upon clicking takes user to interior page (see flowcharts).

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

- 1** Dedicated Subnavigation area. Implemented as CSS text on graphic backgrounds. Buttons have 3 states: unselected, rollover and selected. Rolling over buttons causes change to rollover state. Clicking on button takes user to that section and changes button to selected state.
- 2** Text for section. See copy deck for details.
- 3** Links to individual newsletters. Selecting link takes user to individual newsletter page (see next template). Newsletters should be posted in reverse time order, with newest at top.
- 4** Reserved 3rd column area for persistent calls to action. Photographic treatment. Clickable objects take user to other interior pages. Implemented as HTML with no flash and no rollover state.
- 5** Persistent Fair Balance text and persistent footer. Intended to fall below fold on interior pages where possible without creating large amounts of white space between this area and text content area above.

1

2

How to get here:
User selects 'I agree' from HCP Agreement page (1.7.0) or selects AmbienCR logo from any other interior HCP page

Concept/Purpose/Objective:
To provide homepage to HCP site.

Technical Specifications:
ALL HCP PAGES FUNCTION EXACTLY AS IN CURRENT IN TOUCH STAGING SERVER WITH EXCEPTIONS IN NOTE BELOW. ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

The wireframe shows a professional healthcare page layout. At the top right, the Sanofi-Aventis logo is present. The main headline reads 'A Good Night's Sleep from Start to Finish.' Below this is a navigation menu with three active tabs: 'DUAL LAYER', 'SAFETY', and 'HCP RESOURCES'. To the right of the navigation is a search bar and a 'BACK TO AMBIEN CR' button. The main content area features a 'Prescribing Information' button, a callout box with the text 'Immediate release for fast onset!' and an image of a white pill, and a section titled 'A Good Night's Sleep from Start to Finish' with the text 'Prescribe Dual-Layer AMBIEN CR First Line for Both Sleep Induction and Sleep Maintenance.' A green arrow points from a callout box labeled '1' to the 'Prescribing Information' button.

NOTES

- 1 Eliminate 'About Insomnia' section from all pages.

Continues as on current staging server

How to get here:
User selects 'Dual Layer' from HCP Home page (1.7.1) or from any other interior HCP page

Concept/Purpose/Objective:
To provide information on the dual layer of Ambien CR.

Technical Specifications:
ALL HCP PAGES FUNCTION EXACTLY AS IN CURRENT IN TOUCH STAGING SERVER WITH EXCEPTIONS IN NOTE BELOW. ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

The wireframe shows a website layout for Ambien CR. At the top right is the Sanofi-Aventis logo and the text 'For U.S. residents only.' Below this is the headline 'A Good Night's Sleep from Start to Finish.' The main navigation bar includes 'DUAL LAYER', 'SAFETY', and 'HCP RESOURCES'. A search bar and utility links like 'Site Map', 'FAQs', 'Email Page', and 'Print Page' are also present. The main content area features the heading 'AMBIEN CR Represents a Significant Advancement in the Treatment of Insomnia' followed by details about the 'first layer' and 'second layer' of the medication, its half-life, and dosage. A 'Reference' section is at the bottom. On the left, a callout menu lists sub-navigation items: 'Plasma Concentrations', 'Sleep Maintenance', 'Sleep Maintenance - Elderly Patients', 'Sleep Duration', 'Sleep Duration - Elderly Patients', and 'Dosage'. On the right, there are buttons for 'Prescribing Information' and a 'Mean Plasma Concentration' graph with a 'FOR MORE' link. A green arrow points from the 'DUAL LAYER' button to the 'Prescribing Information' button. A black box with the number '1' is next to the 'Prescribing Information' button, and a black box with the number '2' is next to the 'Sleep Maintenance - Elderly Patients' menu item.

NOTES

1 Eliminate 'About Insomnia' section from all pages.

1 Sub-nav buttons must be redrawn to indicate that all buttons are of the same level of navigation. It is an error in the current site that Sleep Maintenance - Elderly patients is a sub of Sleep Maintenance and Sleep Duration - Elderly patients is a sub of Sleep Duration. They are all pages at the same level of navigation and all buttons should be drawn the same.

Continues as on current staging server

How to get here:
User selects 'Safety' from HCP Home page (1.7.1) or from any other interior HCP page

Concept/Purpose/Objective:
To provide information on the safety of Ambien CR.

Technical Specifications:
ALL HCP PAGES FUNCTION EXACTLY AS IN CURRENT IN TOUCH STAGING SERVER WITH EXCEPTIONS IN NOTE BELOW. ALL PAGES WITHIN SITE ARE TO BE DESIGNED TO 1024x768 PAGE RESOLUTION. Except for flash-based functionality, all navigation items should attempt to be implemented via CSS text on graphic backgrounds and not as graphics for search engine optimization.

Global Navigation:
Global Navigation elements include toolbar, search entry field, main navigation bar and fair balance/footer.

Global Callouts (3rd Column):
None.

Note: Graphical elements, such as colors and button shapes, and pixel widths indicate functionality only and are not indicative of final branding choices.

NOTES

1 Eliminate 'About Insomnia' section from all pages.

1 Sub-nav buttons must be redrawn to indicate that all buttons are of the same level of navigation. It is an error in the current site that Adverse Events - Elderly patients is a sub of Adverse Events. They are all pages at the same level of navigation and all buttons should be drawn the same.

Continues as on current staging server

How to get here:

User successfully performs the following actions which causes the system to
(a) send the user an email confirmation or (b) prints a document:

- (1) Sends email to friend using Email to Friend Form
- (2) Prints sleep test from Sleep Test page 1.2.2
